Oleg Belyaev K.

Oceanographer & GIS Scientist

o.belyaev@csic.es
LinkedIn: www.linkedin.com/in/olegbelyaevkorolev/

Growing up immersed in dual cultures and languages has endowed me with a global perspective and advanced critical thinking skills, enabling me to approach and solve problems effectively. Holding a Bachelor's degree in Biology and a Master's in Coastal Oceanography, my current research focuses on integrating biogeochemical insights with earth observation to understand the complexities of marine ecosystems, particularly in the Antarctic region. My academic journey is driven by a passion for understanding and preserving marine biodiversity, leveraging my expertise in both theoretical and practical aspects of marine science. Outside academia, I enjoy exploring diverse cultures, engaging in outdoor activities, and spending quality time with friends and family.

EDUCATION

PhD. in Marine Science and Technology , CADIZ UNIVERSITY, Spain <i>Antarctic Biogeochemistry and Remote Sensing research</i>	2024 — ongoing
MSc. in Oceanography , CADIZ UNIVERSITY, Spain <i>Deep understanding of biological, physical, chemical and geological processes in the coastal oceanic systems.</i>	2020 — 2021
BSc. in Molecular Biology (Erasmus+ Program) , UMEÅ UNIVERSITY, Sweden <i>Advanced molecular biology and genetics laboratory techniques, Neurobiology.</i>	2018 — 2019
BSc. in Biology , ALCALA UNIVERSITY, Spain <i>Understanding of the basic structures and dynamics of living organisms and its interactions with their environment.</i>	2015 — 2018

RESEARCH EXPERIENCE

PHD PROGRAM / DICHOSO ANTARCTIC PROJECT <i>Institute of Marine Sciences of Andalusia (ICMAN-CSIC) - Cádiz University (UCA)</i>	January 2024 — Ongoing <i>Cádiz, Spain</i>
<ul style="list-style-type: none">Describing the biogeochemical features of Deception Island, Antarctica.Understanding the physical-biological interaction of Deception Island ecosystem and its relationship with the biochemical budgets.Forecasting future trends and characterizing biogeochemical current budgets of Deception Island.	
REMOTE SENSING SCIENTIST / MARINE STRATEGIES PROJECT <i>Institute of Marine Sciences of Andalusia (ICMAN-CSIC)</i>	May 2023 — December 2023 <i>Cádiz, Spain</i>
<ul style="list-style-type: none">Worked on satellite-based algorithms for the detection of marine heat events.Continued the development of the Andalusian Marine Observatory.	
REMOTE SENSING SCIENTIST / EUROSEA PROJECT <i>Marine Institute (MI)</i>	August 2022 <i>Galway, Irealnd</i>
<ul style="list-style-type: none">Collaboration at Galway's Marine Institute within the framework of the EuroSea project for the development of an observation and warning system for risks derived from extreme marine events.	
REMOTE SENSING SCIENTIST / SAT4ALGAE PROJECT <i>Institute of Marine Sciences of Andalusia (ICMAN-CSIC)</i>	November 2021 — March 2023 <i>Cádiz, Spain</i>
<ul style="list-style-type: none">Generated satellite tools for the detection of algal blooms, focusing on both macroalgae and microalgae.Contributed to the development of the Andalusian Marine Observatory as part of the SOLAUT project.Worked on the Sat4Algae project, emphasizing the advancement of marine sciences through satellite technology.Collaborated in multidisciplinary teams to enhance satellite-based environmental monitoring capabilities.	

FIELDWORK EXPERIENCE

XXXVII SPANISH ANTARCTIC CAMPAIGN <i>"Gabriel de Castilla" Spanish Antarctic Base / "Hespérides" Research Vessel</i>	February 10 — March 26, 2024 <i>Deception Island, Antarctica</i>
<ul style="list-style-type: none">22 days of fieldwork at the "Gabriel de Castilla" base at Deception Island.12 days onboard the R/V "Hespérides".Participation as part of the DICHOSO Antarctic Project Framework.

CONFERENCES

- XX Congress of the Spanish Association of Remote Sensing (AET) 2024**. National congress, Cádiz, June 2024. Listener & co-organizer.
- II International Meeting on Knowledge and Blue Economy – InnovAzul 2022**. Meeting of students with companies and professionals from the Blue Economy sectors, Cádiz, November 29 - December 2, 2022. Listener.
- 2022 Sustainable Ocean Summit (SOS) & Global Blue Finance Summit (BlueFIN)**. International congress, Barcelona, October 2022. Listener.
- VIII International Symposium on Marine Sciences (ISMS) 2022**. International congress, Gran Canaria, July 2022. *Poster presentation* – Satellite monitoring of forecasted oceanic variables through the Marine Observatory of Andalusia.
- XIX Congress of the Spanish Association of Remote Sensing (AET) 2022**. National congress, Pamplona, June-July 2022. *Poster presentation* – Ocean monitoring service through remote sensing: Andalusian Marine Observatory.
- EuroSea Annual Meeting 2022**. European congress, Cádiz, May 2022. *Oral presentation* - Development of a near-real-time remote sensing ocean monitoring service: the Andalusian Marine Observatory.
- III Congress of Young Marine Researchers (JIS)**. International congress, Motril, Granada, September 2021. *Oral presentation* – Quantification of penguin populations using neural networks on Deception Island (South Shetland Islands, Antarctica).
- XXXIII Conference of the Spanish Association of Entomology**. National congress, Almería, November 15-18, 2017. *Oral presentation* - Bergmann's Temporal Rule? Contrasting effects of temperature and solar radiation on the body size of dung beetles across circadian rhythms.
- IX Spanish Space Students Conference at LEEM-UPM**. Madrid, 2017. *Co-organizer* & Listener.

PROJECTS

- DICHOSO - Contribution of water masses of Deception Island to biogeochemical inventories of the Southern Ocean: current budgets and future trends (Ref: PID2021-125783OB-I00)**.
PI: Emma Huertas & Antonio Tovar-Sánchez. *PhD Program*. 2024 — ongoing
- Marine Strategies - Application of models for the quantification of cumulative impacts on pelagic habitats in pilot areas**.
PI: Gabriel Navarro *Development of satellite-based algorithms for the detection of marine heat events*. 2023
- EuroSea - Improving the European ocean observing and forecasting system in a global context. (Ref: 862626)**.
Development of Irish part of the Marine Observatory within the framework of this project.. 2022
- Sat4Algae Project (Ref: PY20-00244. 2021-2022), Project of Excellence, Junta de Andalucía**. PI: Gabriel Navarro.
Development of the Andalusian Marine Observatory within the framework of this project.. 2021 — 2023
- PiMetAn Project (Ref: RTI2018-098048-B-I00)**, Ministry of Science and Innovation. PI: Antonio Tovar-Sánchez.
Master's thesis developed within the framework of this project. 2021

Oleg Belyaev K.

Oceanographer & GIS Scientist

o.belyaev@csic.es
LinkedIn: www.linkedin.com/in/olegbelyaevkorolev/

TECHNICAL PROFICIENCIES

Text Edition and Database	Git, \LaTeX
GIS Software	QGIS, UGCS, Google Earth Engine
Scientific Programming	Python, JavaScript (for GEE), MATLAB
Design	Adobe Illustrator, Photoshop, AfterEffects

COURSES

A1-A3 & A2 UAV Certified Operator AESA
SSI Divemaster +220 logged dives and +100 OW Assisted OW Courses, Nitrox Certified. Princess Divers
Google Earth Engine CSIC
Field-work Risk Management CSIC

AREAS OF EXPERTISE

- Geographical Information Systems, UAVs, Coastal Oceanography Processes
- Neural-network based object detection
- Scientific illustration
- Teamwork, communication, pathfinder
- Cross-Functional Team Leadership

LANGUAGES

Spanish, Russian	Native level
English	Fluent speaker
French	Basic speaker

PERSONAL ACTIVITIES AND ADDITIONAL INFORMATION

Coral Restoration program with OceanQuest and Sea Sepherd in Thailand	2020
European Driving License B	2016
Co-Manager of Literature and Philosophy Club, <i>La flauta Magica</i> in Madrid	2015-2017
